*Data are taken from the USHE Data Books, available annually on the Utah State Board of Regents website. State Appropriations and Tuition and Fees include Appropriations and related Tuition and Fees for Education & General, School of Medicine and Regional Dental Program line items only. These data values will differ from those shown in the University's annual Financial Report. For example, see the comparable figures in Tables R1 through R3 which are taken from the Financial Report. The long time series shown above is only possible using USHE figures because of GASB (accounting standards) and internal accounting changes used in generating the University's Financial Report.
